Architecture Intelligence (AI -2025)

A Design Carnival where creativity embraces digital competency…for shaping tomorrow's spaces.

14-16th November 2025, Bhubaneshwar

Think architecture is just walls and roofs? Think again! This year's Design Carnival dives into the world of Architecture Intelligence where creativity, technology, and sustainability convergence to shape the future of how we live, work, and play.

From futuristic AI-powered design tools to age-old wisdom reimagined for modern cities, this carnival is about making architecture smarter, greener, and more human.

What's Happening?

▐ Inspiring talks by Architects and Innovators

▐ Bold Exhibits of Projects and Prototypes

▐ Hands-on Workshops on Computational Design & AI

▐ Competitions to Showcase your Talent

▐ Art, Music & Cultural Nights that keep the vibe alive

▐ Join us to explore a future where architecture thinks, adapts, and inspires.

Keynote Speaker

Ar. Nuru Karim

Founder and Principal of the award-winning
Design and Research Studio

NUDES, brings over 25 years of experience in the field of architecture. He received his Master's in Architecture and Urbanism from the prestigious Architectural Association (AA), London in 2006. His formative academic journey included education and travel across London, Mumbai (where he graduated as a Gold Medallist from KRVIA), and Montreal (McGill University). Karim gained invaluable experience at Zaha Hadid Architects, London, contributing to various high-profile institutional projects through competition, schematic, and detailed design phases.

His practice at NUDES operates at the intersection of art, architecture, and computational design, leveraging advanced digital tools to address pressing social, cultural, and environmental challenges.

In 2021, Karim was among the 200 Visionaries globally invited by the Louis Vuitton Foundation to participate in LV200, an exclusive design initiative commemorating the founder's centennial. His work has garnered critical acclaim, including several national and international design awards and a nomination for the Aga Khan Award for Architecture (2013 cycle).

A passionate thought leader and educator, Karim has delivered talks and presentations on prominent platforms, including TEDx (2019), and continues to share his research and design philosophy across global academic and professional forums.

Master Speaker

Ar. Sahil Tanveer

Specifically Everything. Generally Architect.

Sahil Tanveer is an architect, author, and educator, known for his work at the intersection of artificial intelligence and design. He is the founder of RBDS and RBDS AI Lab, where architectural research meets advanced AI workflows and speculative thinking.

His work spans built projects, research, and public speaking — with over fifty keynotes delivered across India and abroad. He has collaborated with real estate developers, retail brands, lighting designers, and institutions to shape AI-first creative ecosystems.

Sahil is the author of Delirious Architecture: Midjourney for Architects and the Prompt Engineering for Architects series, and his AI documentary The Atavism of an Old Ideal was screened at the International Film Festival of Larissa in Greece.

Known for his cinematic presentation style and thought-provoking insights, Sahil continues to explore how human intuition and machine intelligence can co-create the future of the built world.
